Find the right plan

Thank you for your interest in UPMC *Advantage* Individual and Family plans. This information will help you determine the monthly premium you can expect to pay for the plan you choose.

Somewhere in the next few pages is the perfect plan for you. In the following charts, you'll find a detailed breakdown of UPMC *Advantage* plan options, organized by network. You can select your preferred network from the following three options:

UPMC Partner Network (EPO)

Plans with the UPMC Partner Network are only available to people who live in Allegheny or Erie county. All UPMC providers and facilities are included in the network. In Erie, some independent providers and facilities are included as well. Although members must live in one of these counties to purchase the plan, they can receive care from any UPMC provider or UPMC-owned facility in the 28-county service area.

UPMC Select Network (EPO)

The UPMC Select Network is only available to people who live in Allegheny, Beaver, Butler, Washington, or Westmoreland county. It includes all UPMC providers and UPMC-owned facilities. This network is only available in individual and family plans.

UPMC Premium Network (PPO)

Plans with the UPMC Premium Network are available in the 29-county service area. This network includes all UPMC providers and UPMC-owned facilities. Many independent providers and facilities are also included. Members have the option of going outside the network for care, but pay a greater share of the cost if they do.

How to calculate your total monthly premium cost

To calculate your total monthly premium cost:

- Select your area of coverage by finding your preferred network.
- Determine the age of each person to be covered.
- Determine if the individual is a smoker or non-smoker.
- Add the monthly payment amounts associated with each individual.

Here is an example for calculating a monthly premium:

- A family of three living in Allegheny County selects the Silver \$3,250/\$10 Plan in the UPMC Partner Network.
- To determine the monthly premium, add each individual's rate:
 - Mom's premium (27 years old, non-smoker) = **\$141.51**
 - Dad's premium (28 years old, non-smoker) = **\$146.51**
 - Son's premium (2 years old) = **\$85.74**
 - Total monthly premium = **\$374.02**
