

ICHRA

DAVEVIC

Simplified with Davevic

ACRISURE® PARTNER

Individual Coverage Health Reimbursement Arrangement (ICHRA) is a health plan solution that allows employers to reimburse their employees each month for premiums and out-of-pocket medical expenses.

Employees choose and purchase their own health insurance plans

Hassle-free premium payment process makes ICHRA look and feel like a traditional plan

Employers save on premiums and leave the medically underwritten health care market.

With an ICHRA plan in place, employers don't pick the insurance company or plans to offer. Employees buy their own individual health insurance plan with pre-tax money.

Davevic makes ICHRA easy!
