UPMC Health Plan

Savings Plan 2500

QHDP - Exclusive Provider Organization (with HSA)

The Exclusive Provider Organization (EPO) plan blends elements of a traditional HMO with elements of a Preferred Provider Organization (PPO). Similar to a PPO, the EPO does not require you to select a primary care physician to act as a “gatekeeper.” But like an HMO, the EPO does require you to receive your care from participating providers and facilities in order for it to be a Covered Service. A qualified high-deductible plan (QHDP) is a government requirement for participation in tax-advantaged health savings accounts.

We encourage EPO policy owners to build a long-term relationship with their physician, who can be a family or general practitioner, an internist, or a pediatrician. Your personal physician performs routine and preventive care, and can coordinate specialist care. Most important, your personal physician is in the best position to become familiar with your medical profile. Women (usually aged 19 and older) may also select an ob-gyn to provide or coordinate all covered gynecological and obstetric care. However, women are not required to see the same ob-gyn on a regular basis.

You must use participating providers and facilities to receive covered benefits (except for emergency or urgent care, or very specialized care not available in our network, which has been prior authorized by UPMC Health Plan). If you choose to go to a non-participating provider or facility, you must pay for the services yourself.
